DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I claim(s) 1-8, drawn to skin structure of welded air hardenable steel.

Group II claim(s) 9-22, drawn to method of constructing a skinned structure or air hardenable steel.

- 2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: claim 1 is either obvious over or anticipated by McCrink (US 6,293,313) accordingly, the special technical feature linking the two inventions, the article comprising an air hardenable steel plate or sheet, does not provide a contribution over the prior art, and no single general concept exits. Therefore, restriction is appropriate.
- 3. Applicant is advised that the reply to this requirement to be

completed must include an election of invention to be examined even though the requirement be traversed (37 CFR 1.143).
